GUIDE

Dr. Monica D

Version 1.0 · October 2026

Start Here: Find Your Role

This guide is written so that you only need to read the pages for **your own role**. Find your role in the table below and go straight to that page (in the PDF you can simply click the role name). Your role is printed in the top-right corner of the screen after you sign in, just under your name.

Your role (as shown in the system)	What you mainly do	Page
Head of Department (Requester)	Raise requests and track them	**13**
Institution Manager	First check of every request, SOP check	**15**
Accountant	Budget verification	**16**
Head of Institution	Approve for the institution, route, policies, users	**17**
Chairman Office	Central check, SOP library, users	**18**
HR Head	Review requests in your area	**19**
MMA	Review purchase and maintenance requests	**19**
Manager – Data Management	Review IT requests	**19**
Audit	Audit check on financial requests	**19**
GM Finance	Finance check	**19**
Director Admissions	Review IT and academic-finance requests	**19**
Director Research	Review research requests	**19**
Director Admin	Senior review, track all requests, users	**20**
Chief Director	Senior review, track all requests	**21**
Chairman	Final approval of requests and policies	**22**

> **How this guide is arranged.** **Part A** explains the screens that everyone uses (signing in, opening a request, approving, queries and so on). **Part B** has one short guide per role. Each role guide points back to the Part A pages it needs, so nothing is repeated. **Appendix A** lists every approval route in one table.

19	Chairman	22

APPENDIX

A	All Approval Routes at a Glance	23
B	Common Questions	24

PART A

For Everyone

Screens and actions that every user of the system shares.

1 How the System Works

The **SRM PRIME Approval System** replaces paper files for approvals. A person raises a **request** (for example, buying lab equipment or organising an industrial visit). The request then moves from one officer to the next. Each officer checks it and either sends it forward or rejects it. The **Chairman** gives the final approval. Everyone can see where a request is at any moment.

The common path of every request

Head of Department → **Institution Manager** → **Accountant** → **Head of Institution** → **Chairman Office** → **Area approvers** → **Chairman**

After the Chairman Office, the request goes to the officers who look after its area (HR, Purchase, IT, Maintenance, Academic, Research or Non-Budgeted). The system picks this route automatically from the type of request, so nobody has to choose it. The full list of routes is in Appendix A (page 23).

What the status words mean

Status	Meaning
Pending	The request is waiting with the officer shown under **Stage**.
Query	An officer has asked a question. The request waits until the question is answered.
Approved	The Chairman has approved it. The work can now start and its progress is tracked under **Completion Status**.
Rejected	An officer rejected it. The reason is shown on the request page. A rejected request cannot be reopened; raise a new one if needed.
Flagged	The request has waited more than 8 working hours at one stage (see Section 7, page 10).

2 Signing In, Forgot Password and Signing Out

To sign in

1. Open the system's web address in Google Chrome or Microsoft Edge. On the welcome page, click **Login**.
2. Type your **e-mail address** or your **Employee ID**.
3. Type your **password**. Click the eye symbol if you want to see what you typed.
4. Click **Sign In**. Your Dashboard opens.

> **First time?** Your account is created for you by your administrator. The starting password is **123456**. Change it after your first sign-in (see Section 10, page 12).

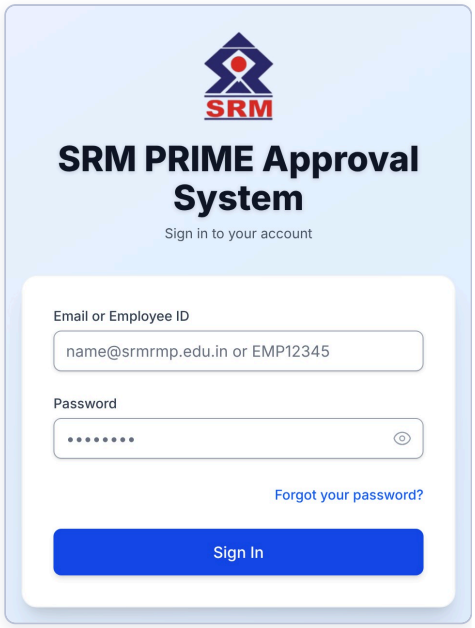

Figure 1 – Sign-in page

If you forgot your password

1. On the sign-in page, click **Forgot your password?**
2. Enter your e-mail address and click **Send OTP**.
3. Type the one-time code (OTP) sent to your e-mail, then set a new password.

To sign out

Click the **sign-out arrow** in the top-right corner of any page (item 4 in Figure 2). Always sign out on a shared computer.

> **Careful:** on a computer, clicking the **SRM logo** at the top of the page also signs you out. If you are signed out by mistake, just sign in again; nothing is lost.

3 The Main Screen and Dashboard

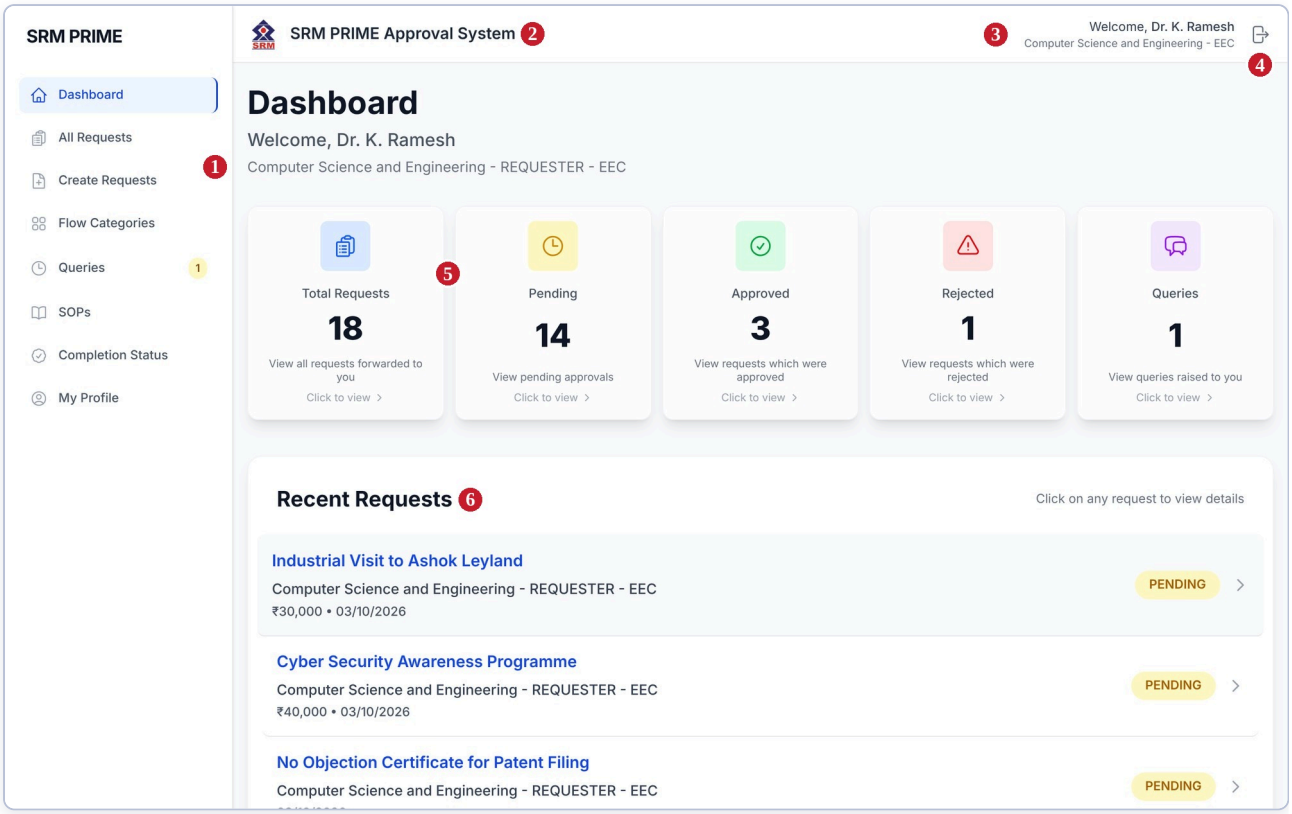

Figure 2 – The main screen (Dashboard of a Head of Department)

No.	Part of the screen	What it is for
1	**Side menu**	Takes you to each page. You only see the pages your role is allowed to use, so your menu may be shorter or longer than this one. A small coloured number next to **Queries**, **Policies** or **Flagged Requests** means something is waiting for you.
2	**Logo and title**	Clicking the logo signs you out (see the warning in Section 2).
3	**Your name and role**	Check this to confirm you are signed in with the right account.
4	**Sign out**	Ends your session.
5	**Summary cards**	Count of your requests: total, pending, approved, rejected and queries (some roles also see a Policies card). Click a card to open that list.
6	**Recent Requests**	Your latest requests with their status. Click a title to open it, or click **View All** at the bottom.

On a mobile phone the side menu is hidden. Tap the three-line menu button at the top-left to open it.

4 Finding and Opening a Request

Click **All Requests** in the side menu. The list shows the requests you raised or that have reached you. Use the tabs **All Requests**, **Pending**, **Approved** and **Rejected** to filter. The **Stage** column tells you who has the request now. Click any row to open it.

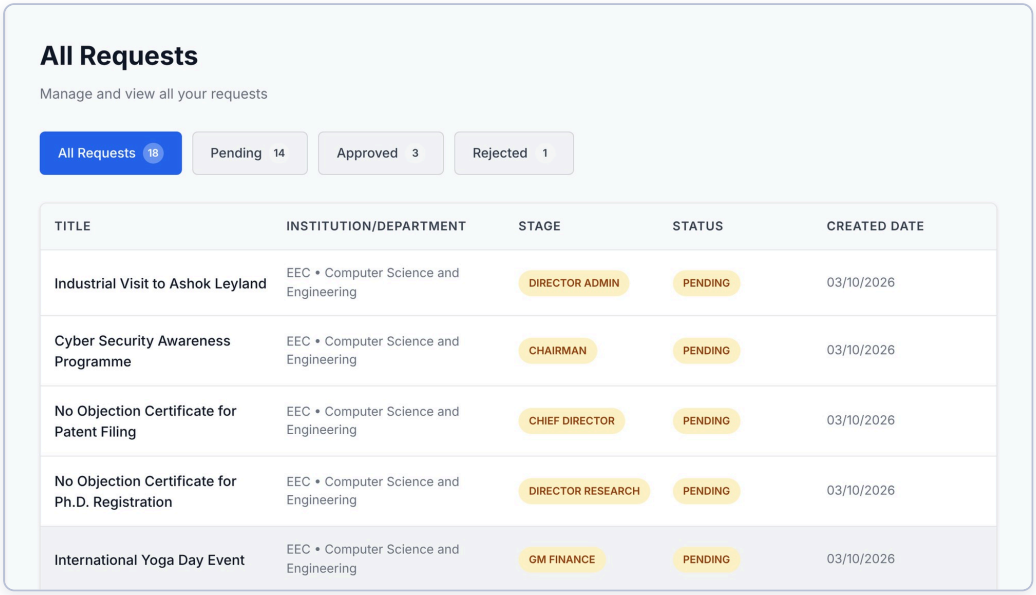

Figure 3 – All Requests list

Reading the request page

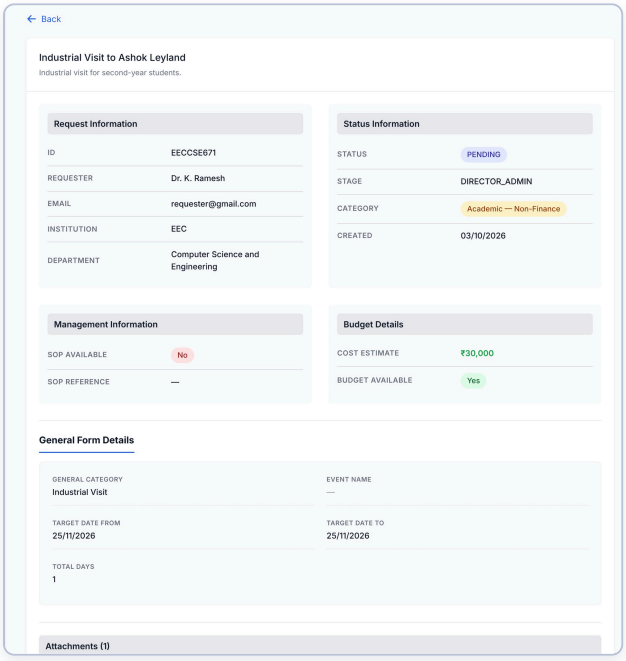

Figure 4 – Request details

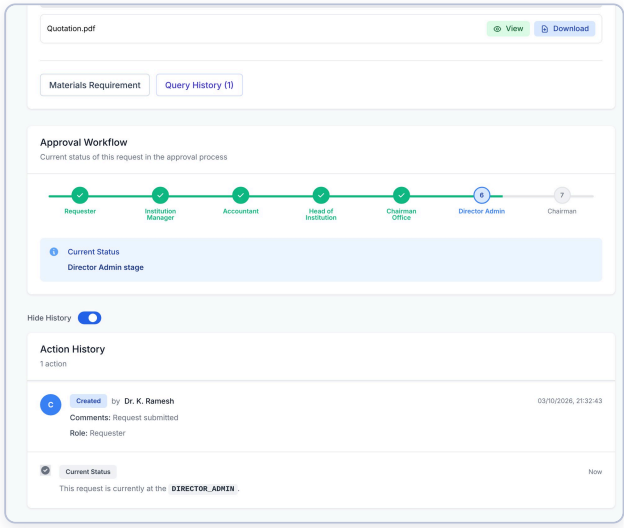

Figure 5 – Approval Workflow and Action History

- **Request / Status Information** – who raised it, the department, its current **Stage**, **Status** and **Category** (route).
- **Management Information** and **Budget Details** – whether an SOP exists, the cost estimate and the budget checked by the Accountant.

- **Form Details** – the extra details filled in for this type of request.
- **Attachments** – click **View** to read a document or **Download** to save it. Excel files are shown as PDF.
- **Buttons** – **Process Request** and **Raise Query** appear only when the request is waiting with **you**. **Materials Requirement** shows the list of items to buy, and **Query History** shows earlier questions and answers.
- **Approval Workflow** – a progress line. Green ticks are finished stages, the blue circle is the current stage and grey circles are still to come.
- **Action History** – who did what and when, with their comments. Use the **Show / Hide History** switch to open or close it.

5 Processing a Request: Forward or Reject

When a request reaches your stage, it appears in your **Pending** list. Every approver follows the same basic steps. Some roles see a few extra boxes in the same window; these are explained in their own role guide.

1. Open the request (see Section 4) and read the details and attachments.
2. Click **Process Request**.
3. Type your remarks in **Comments**. They are saved in the Action History for everyone to see.
4. If needed, add supporting PDF files under **Attach Documents** (optional, up to 10 MB each).
5. Click **→ Forward Request** to send it to the next officer, **or** **✕ Reject Request** to stop it.
6. If you reject, type the **Rejection Reason** and click **Confirm Rejection**. The reason is required and is shown to the requester.

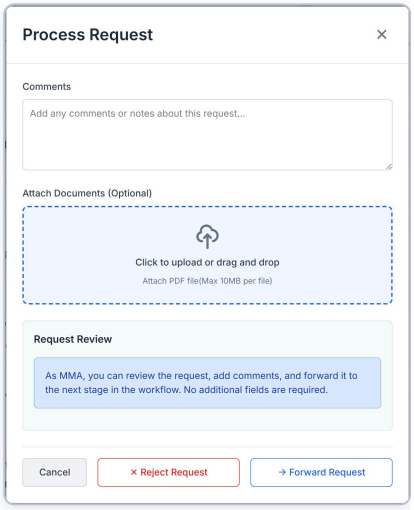

Figure 6 – Process Request window

> **Not sure yet?** Instead of rejecting, ask a question with **Raise Query** (see Section 6, page 8).

> **Remember:** forwarding and rejecting cannot be undone.

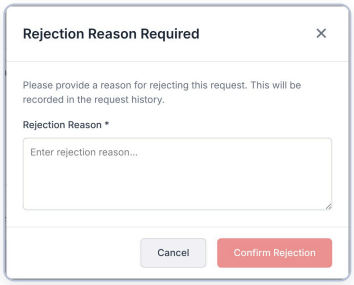

Figure 7 – Rejection reason

6 Queries: Asking and Answering Questions

A **query** is a question about a request. While a query is open, the request's status shows **Query** and it waits until the answer comes.

To ask a question (raise a query)

1. Open a request that is waiting with you and click **Raise Query**.
2. In **Direct Query To**, choose the person who should answer. You can pick anyone who has already handled the request, such as the Head of Department who raised it.
3. Type your question in **Your Query** and click **Raise Query**.

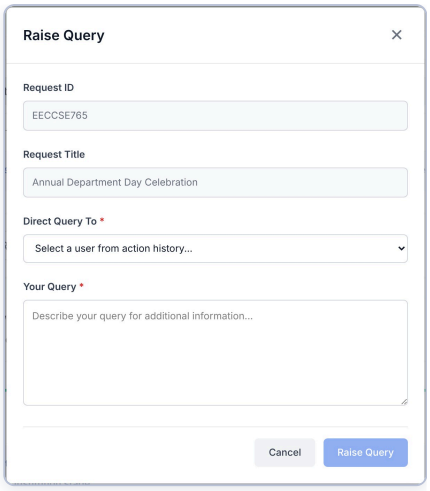

Figure 8 – Raise Query window

To answer a question

1. A number next to **Queries** in the side menu means a question is waiting for you. Click it.
2. Under **Active Queries**, click the question to open it.
3. Type your answer under **Your Reply**, attach a PDF if asked, and click **Submit Reply**.

Answered questions move to **Query History**. The **My Queries** tab lists questions you raised yourself.

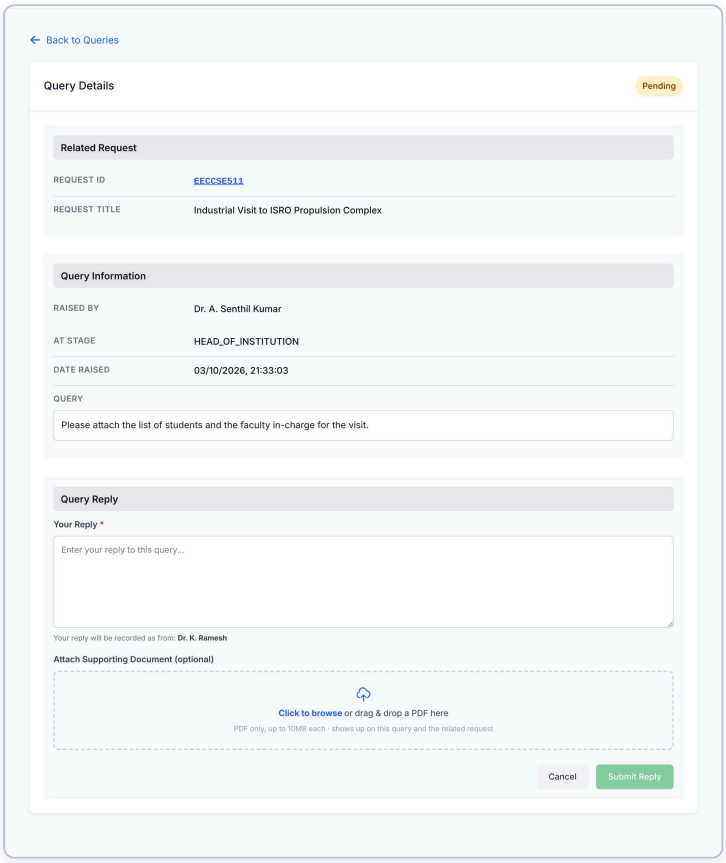

Figure 9 – Answering a query

7 Flagged Requests: The 8-Hour Rule

Every stage should finish its check within **8 working hours** (9 am to 6 pm, Monday to Saturday). An e-mail reminder is sent at 7 hours. At 8 hours the request is **flagged** and the responsible officers are alerted by e-mail. All roles except the Head of Department see the **Flagged Requests** page, and a red number in the menu shows how many are open.

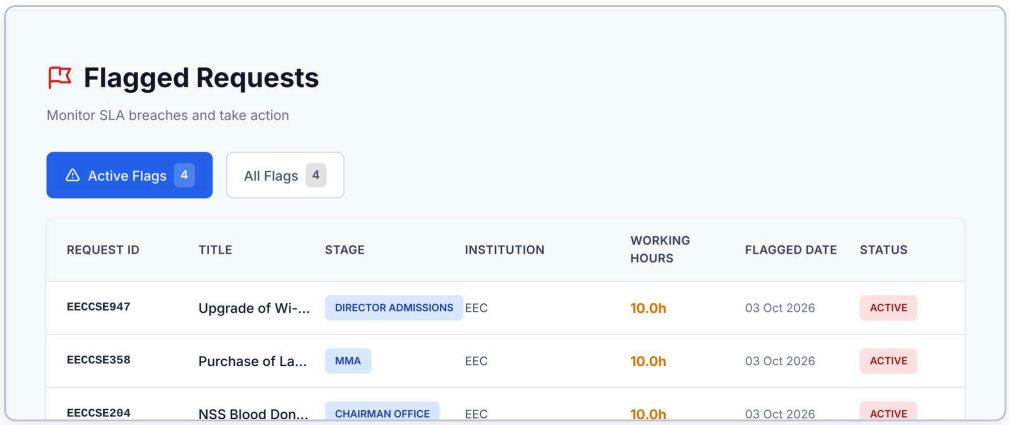

Figure 10 – Flagged Requests list

1. Click **Flagged Requests**. **Active Flags** are still open; **All Flags** also shows resolved ones.
2. Click a row to see the flag: when it was flagged, at which stage, the responsible person and the working hours.
3. The simplest fix is to process the request normally (Section 5); the flag then closes by itself. If you are allowed to act on it, you can also click **Resolve Flag & Forward to Next Stage**, which closes the flag and moves the request on in one step.

8 Completion Status

As soon as the Chairman approves a request, it appears under **Completion Status**. This page tracks whether the approved work was actually done. The tabs show **Pending**, **Completed** and **Overdue** items. A request becomes **Overdue** when its expected date has passed (or no date was set) and it is not marked completed.

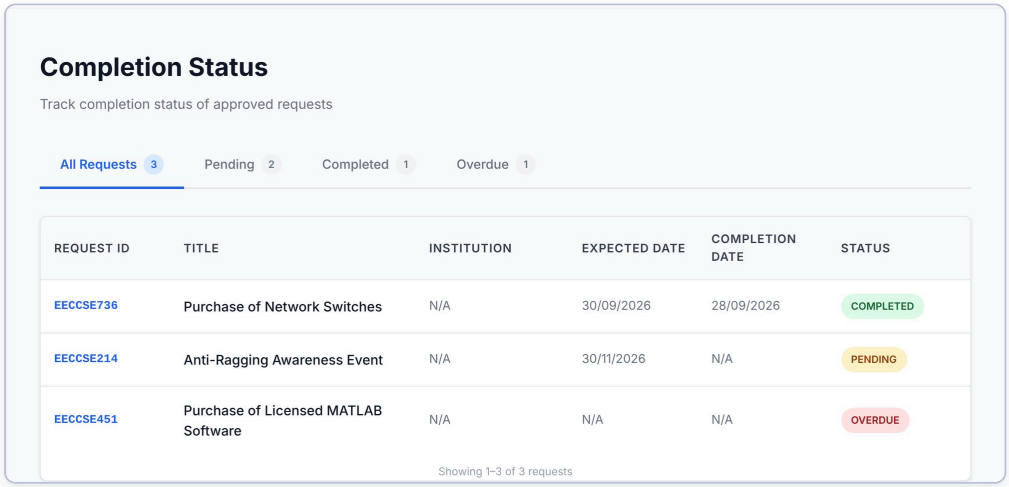

Figure 11 – Completion Status list

To update a completion record

1. Click the **Request ID** in the list.
2. Under **Completion Timeline**, choose the **Expected Completion Date** and click **Set Expected Date**. You can change this date later if plans change.
3. When the work is finished, choose **Completed** under **Update Completion Status**, enter the actual date and attach proof (for example, a bill or report) as PDF.
4. If it could not be finished, choose **Not Completed** and type the reason.

> **Note:** once a record is marked **Completed** it is locked and cannot be changed.

Who sees this page: the Head of Department (own requests), the Institution Manager (requests they created), the Head of Institution (own institution), and the Director Admin, Chief Director and Chairman (all).

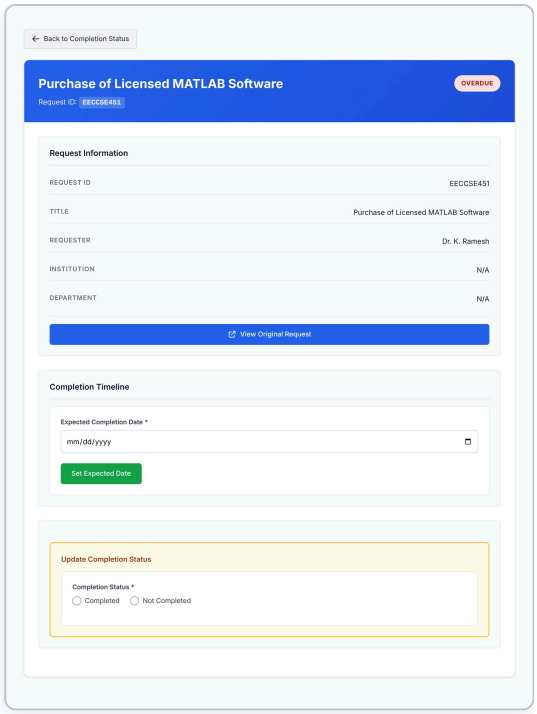

Figure 12 – Updating completion

9 The SOP Library and AI Search

An **SOP** (Standard Operating Procedure) is an approved rulebook for a type of work, for example the norms for a one-day industrial visit. The **SOPs** page lists all SOPs. Use the search box to find one by number, title or description, and click **View SOP Document** to read it. This page is available to the Head of Department, Institution Manager, Head of Institution and Chairman Office.

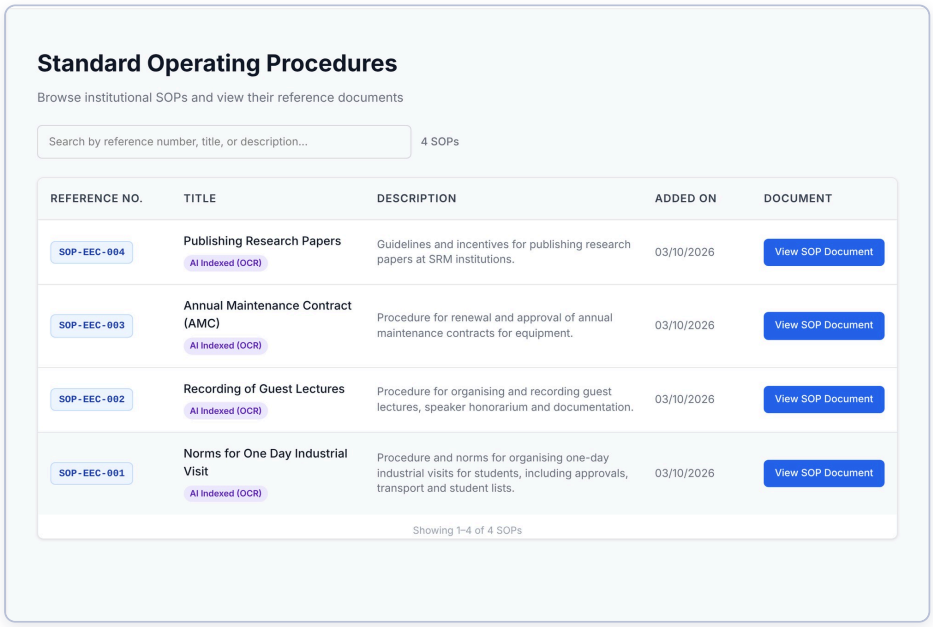

Figure 13 – SOP library

AI Search. On the Create Request form and in the Institution Manager's processing window there is a purple **✦ AI Search** button. It reads the request's title and purpose and suggests the SOPs that match best, with a

percentage score. The best match is selected for you; click **View** to check it, or **Remove** and pick another one from the list or from **Or select an SOP manually**. If no SOP fits, choose **No** for **Matching SOP available?**. Always check the suggestion yourself before you continue.

10 My Profile and Changing Your Password

Click **My Profile** to see your name, Employee ID, e-mail, role, institution and department. These are set by your administrator; ask them if anything is wrong.

1. To change your **phone number**, edit it and click **Save Changes**.
2. To change your **password**, click **Reset Password**, type your current password, then your new password twice, and save.

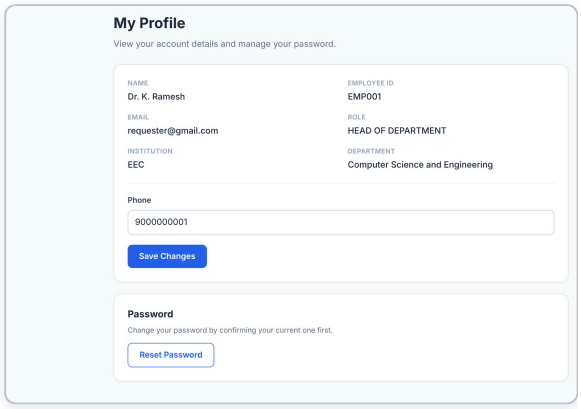

Figure 14 – My Profile

PART B

Role Guides

Read only the guide for your role. Links take you back to the Part A pages you need.

Head of Department (Requester)

ROLE GUIDE · 11

YOUR MENU

Dashboard | All Requests | Create Requests | Flow Categories | Queries | SOPs | Completion Status | My Profile

WHAT YOU CAN DO

Raise new requests for your department, follow their progress, answer questions from approvers, and report when approved work is completed. You do not approve requests.

Raise a new request

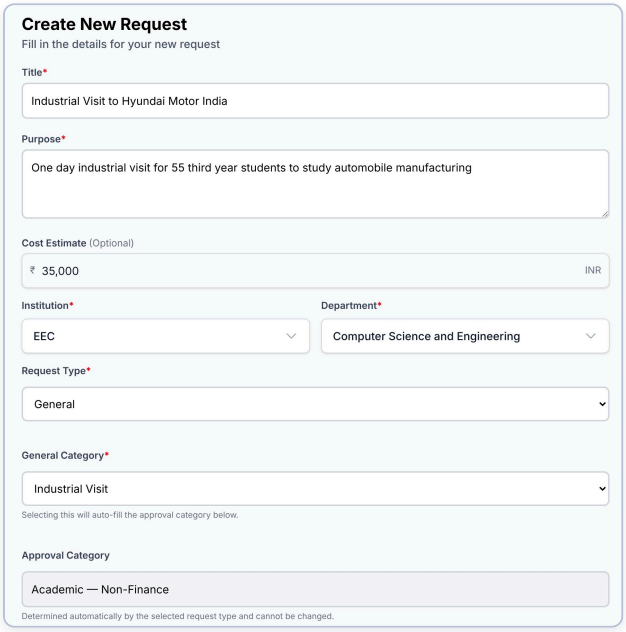

Figure 15 – Create Request: main details

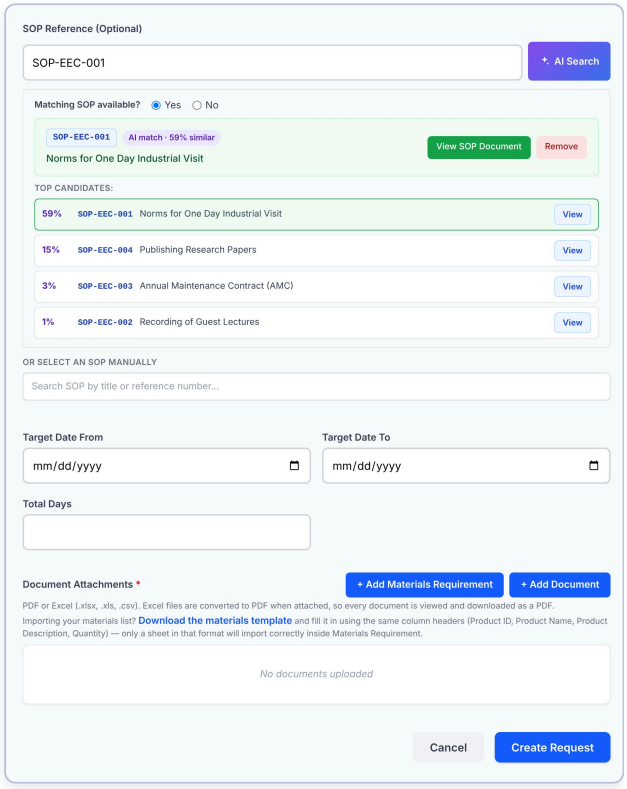

Figure 16 – SOP, dates and attachments

1. Click **Create Requests** in the side menu.
2. **Title** – a short name, at least 5 characters (e.g. "Industrial Visit to Hyundai Motor India").
3. **Purpose** – explain why it is needed, at least 10 characters. Use only letters, numbers, spaces, hyphens (-) and underscores (_); full stops and commas are not accepted.

4. **Cost Estimate** – the expected amount in rupees. Leave it empty if there is no cost; the request then goes straight from the Institution Manager to the Head of Institution, skipping the Accountant.
5. Select your **Institution** and **Department**.
6. Select the **Request Type**. For **General**, also select the **General Category**. The **Approval Category** (route) then fills in by itself and cannot be changed. Extra boxes for that type appear below; fill them in.
7. Optional: click **✦ AI Search** to attach the matching SOP (see Section 9, page 11).
8. For purchases, click **+ Add Materials Requirement** to list each item and its quantity. You can also download the materials template, fill it in Excel and import it.
9. Click **+ Add Document** and attach at least one file (PDF or Excel), such as a quotation or letter. This is required.
10. Click **Create Request**. A Request ID is given and the request goes to your Institution Manager.

> **Which request type should I choose?** Use the table below, or open **Flow Categories** in the menu, which shows every route and the items that belong to it.

Request Type	Route it follows
Equipment Purchase	Admin – Purchase
IT Purchase	Admin – IT
Maintenance, Machine Repair	Admin – Maintenance
Guest Lecture, Seminar Participation, Seminar Hosting, Fees Concession	Academic – Finance
Discontinued Student	Academic – Non-Finance
MoU	Research
Non Budgeted Asset, Non Budgeted and Unexpected Expenses	Non-Budgeted
Recurring Expenditure	Other (the Head of Institution chooses the route)
General – Staff Resignation, Maternity / Medical / On Duty / Long Leave	Admin – HR
General – No Objection Certificate	Research
General – Refund, Anti-ragging Event, Camp, Awareness Programme, Yoga Event	Academic – Finance
General – Industrial Visit	Academic – Non-Finance
General – Others	Other (the Head of Institution chooses the route)

After you submit

- **Track it:** open it from **All Requests** and look at the Approval Workflow line (Section 4, page 7).

- **Answer questions:** when the **Queries** menu shows a number, reply quickly so your request can move on (Section 6, page 8).
- **If rejected:** read the reason on the request page, correct the problem, and raise a new request.
- **Once approved:** set the expected date and later mark the work completed (Section 8, page 10).

Institution Manager

YOUR MENU

Dashboard | All Requests | Create Requests | Flow Categories | Queries | SOPs | Flagged Requests | Completion Status | My Profile

WHAT YOU CAN DO

You are the **first check** for requests from your institution. You confirm whether an SOP exists, check the materials list, and forward or reject. You can also raise requests yourself.

Process a request (with the SOP check)

1. Open the request from your **Pending** list and click **Process Request**.
2. Add your **Comments** and any documents.
3. Under **SOP Management**, answer **Is SOP Available?** If **Yes**, click **✦ AI Search** to find it, or type the SOP number, or select it manually.
4. Click **→ Forward Request** or **✕ Reject Request**.

The rest of the window works as in Section 5 (page 8).

> **Good to know:** if the request has no cost estimate, forwarding sends it straight to the Head of Institution.

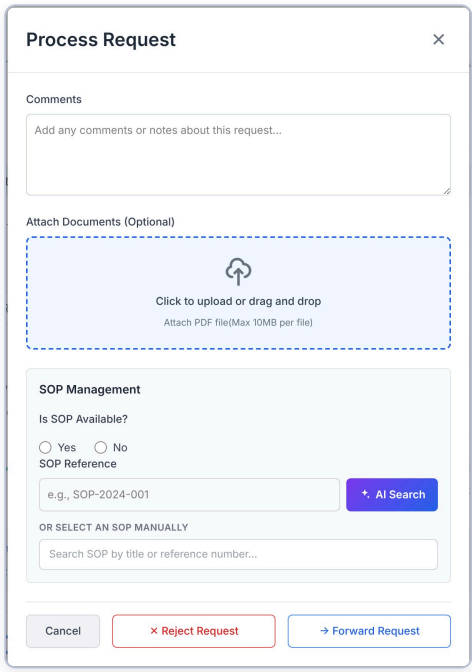

Figure 17 – SOP check while processing

Check or edit the materials list

For purchase-type requests, click **Materials Requirement** on the request page. While the request is with you, use the pencil to edit a row or the bin to delete it. **Change Logs** shows every edit, and **Download as PDF** gives a printable indent.

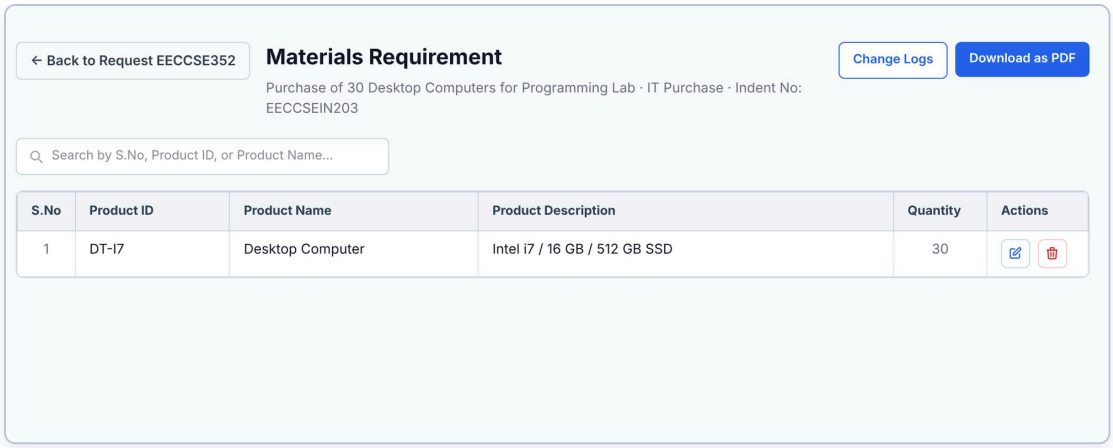

Figure 18 – Materials Requirement

Your other tasks

- **Raise a request:** same steps as the Head of Department (Section 11, page 13). Your own requests start at the Accountant.
- **Queries:** Section 6 (page 8). **Flagged requests** at your stage: Section 7 (page 10). **Completion** of requests you created: Section 8 (page 10).

Accountant

ROLE GUIDE · 13

YOUR MENU

Dashboard | All Requests | Queries | Flagged Requests | My Profile

WHAT YOU CAN DO

You check whether the department has budget for each request that has a cost, record the figures, and forward it to the Head of Institution.

Verify the budget

1. Open the request from your **Pending** list and click **Process Request**. The **Budget Verification** window opens.
2. Enter **Budget Allocated** and **Budget Spent**. **Budget Remaining** is calculated for you.
3. Under **Final Budget Status**, choose **Budget Available** or **Budget Not Available**.
4. Upload supporting PDFs if needed and add comments (optional).
5. Click **Submit**. The request moves to the Head of Institution with your budget figures shown on it.

> **Need clarification?** Use **Raise Query** on the request page before submitting (Section 6, page 8).

Flagged requests at your stage: Section 7 (page 10).

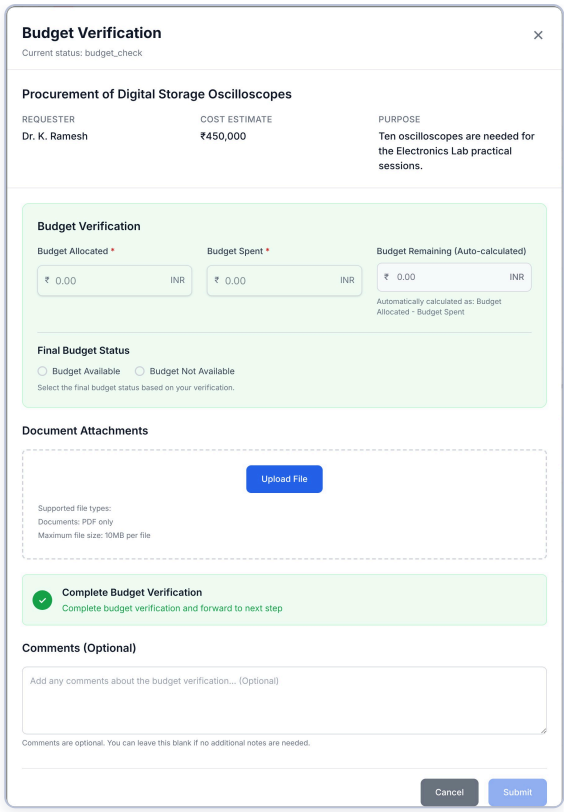

Figure 19 – Budget Verification

Head of Institution

ROLE GUIDE · 14

YOUR MENU

Dashboard · All Requests · Create Requests · Flow Categories · Queries · Policies · Create Policy · SOPs · Flagged Requests · Completion Status · User Management · My Profile

WHAT YOU CAN DO

Approve requests for your institution and send them to the Chairman Office, choose the route for "Other" requests, propose policies to the Chairman, and manage the user accounts of your institution.

Process requests

Follow Section 5 (page 8). The budget figures entered by the Accountant are shown on the request page under **Budget Details**.

Route an "Other" request

Requests of type **General – Others** or **Recurring Expenditure** stop with you and show the category **Other**. You must choose their route before forwarding.

1. Open the request and click **Route Request**.
2. Choose the correct **Approval Category** (for example, Academic – Finance) and click **Route Request**.
3. Then click **Process Request** and forward it as usual.

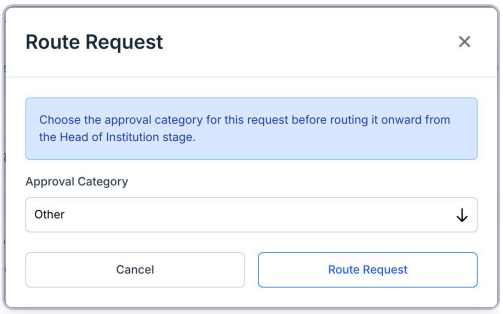

Figure 20 – Route Request

Raise your own request

Same as the Head of Department (Section 11, page 13). Your own requests skip your stage automatically.

Policies

Use a policy for any policy approval, or for items above **₹10 lakhs** that need the Chairman's direct approval.

1. Click **Create Policy**.
2. Enter the **Policy Title**, a clear **Description** and the **Cost**.
3. Attach supporting PDFs with **+ Add Document** and click **Create Policy**.
4. Follow its status under **Policies** (Pending, Approved or Rejected). If the Chairman asks a question, answer it under **Queries**.

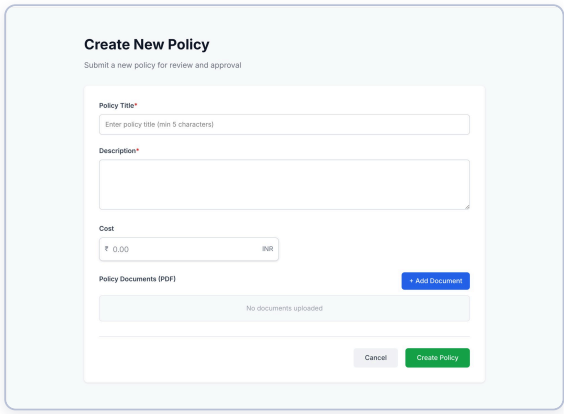

Figure 21 – Create New Policy

Manage users of your institution

In **User Management** you can create and manage **Heads of Department**, **Accountants** and **Institution Managers** of your own institution. The steps are in the Chairman's guide (user steps, page 22).

Also for you: **Flagged requests** at the Institution Manager, Accountant and Head of Institution stages (page 10) and **Completion Status** for your institution (page 10).

Chairman Office

ROLE GUIDE · 15

YOUR MENU

Dashboard · All Requests · Queries · SOPs · Create SOP · Flagged Requests · User Management · My Profile

WHAT YOU CAN DO

Check every request coming from the institutions and pass it to the right area, look after the SOP library, follow up on delays across all stages, and manage user accounts.

Process requests

Follow Section 5 (page 8). When you forward, the system sends the request to the first area approver of its route automatically.

Add a new SOP

When a request needs an SOP that does not exist yet, create it here so it can be circulated and found by AI Search.

1. Click **Create SOP** (or **+ Create SOP** on the SOPs page).
2. Enter the **SOP Reference Number** (e.g. MO/SOP/2026/014) and the **SOP Title**.
3. Write a detailed **Description**: what the SOP covers and when it applies. AI Search matches requests using this text.
4. Click **+ Attach Document**, choose the SOP PDF, and click **Create SOP**.

The system reads the PDF (even a scanned one) and marks it **AI Indexed**. If a document's text has changed, click **Re-index** next to it.

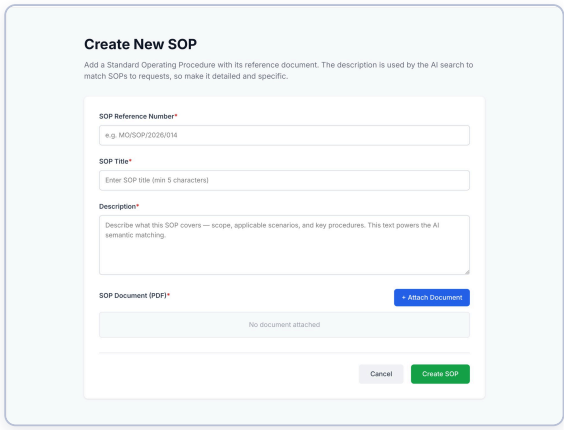

Figure 22 – Create New SOP

Your other tasks

- **Flagged requests:** you can see and resolve flags at **every** stage (Section 7, page 10).
- **User Management:** you can manage all roles except the Chairman and other Chairman Office accounts (user steps, page 22).
- **Queries:** Section 6 (page 8).

Area Approvers

ROLE GUIDE · 16

THIS GUIDE COVERS

HR Head · MMA · Manager – Data Management · Audit · GM Finance · Director Admissions · Director Research

YOUR MENU

Dashboard · All Requests · Queries · Flagged Requests · My Profile

WHAT YOU CAN DO

Review the requests that reach your area after the Chairman Office, then forward or reject them. Your work is the same for all seven roles; only the type of requests differs.

Role	You receive requests from these routes
HR Head	Admin – HR (recruitment, resignation, leave)
MMA	Admin – Purchase, Admin – Maintenance
Manager – Data Management	Admin – IT
Audit	Admin – Purchase, Admin – IT, Admin – Maintenance, Academic – Finance, Research
GM Finance	Academic – Finance, Non-Budgeted
Director Admissions	Admin – IT, Academic – Finance
Director Research	Research (Ph.D., NOC, MoU, publications, patents and so on)

1. Check your Dashboard or the **Pending** tab of **All Requests** for new work.
2. Open the request and read the details, the budget figures and the earlier comments in the Action History.
3. Click **Process Request**, add your comments, then **→ Forward Request** or **✕ Reject Request** (Section 5, page 8).
4. If you need more information first, use **Raise Query** (Section 6, page 8).

> **Watch the clock:** act within 8 working hours, or the request will be flagged at your stage (Section 7, page 10).

Director Admin

YOUR MENU

Dashboard · All Requests · Queries · Policies · Flagged Requests · Workflow · Completion Status · User Management · My Profile

WHAT YOU CAN DO

Review requests on almost every route before they go to the Chief Director or Chairman, keep an eye on all requests across the institutions, view policies, and manage user accounts.

Process requests

Follow Section 5 (page 8). You are on every route except Non-Budgeted.

Track everything with the Workflow page

The **Workflow** page shows **every request in the system**. The coloured boxes at the top count total, pending, approved and rejected requests, and how many have an SOP or a budget. Use the search box and the drop-down filters (status, stage, flagged, SOP, budget, institution and time period) to narrow the list, then click a row to open the request. Click **Refresh** to load the latest data.

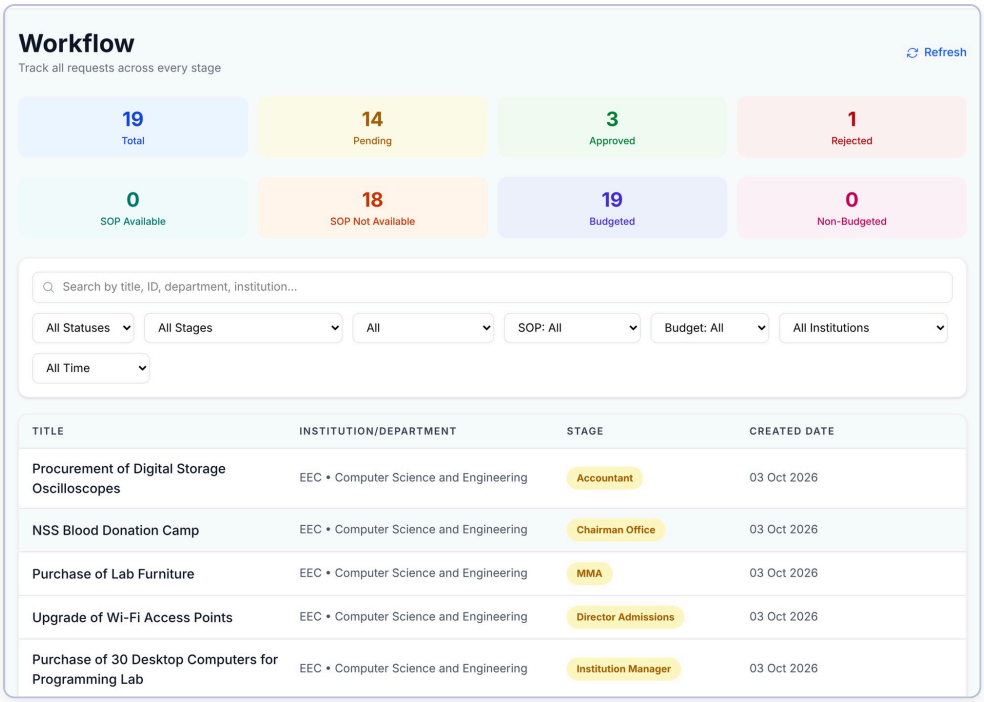

Figure 23 – Workflow page

Your other tasks

- **Policies:** open **Policies** to read policies sent by Heads of Institution and see their status. Only the Chairman approves or rejects them.
- **Flagged requests:** you can see and resolve flags at all stages except Chairman Office, Chief Director and Chairman (Section 7, page 10).
- **Completion Status** of all approved requests: Section 8 (page 10).
- **User Management:** all roles except the Chairman and other Director Admin accounts (user steps, page 22).

Chief Director

ROLE GUIDE · 18

YOUR MENU

Dashboard | All Requests | Queries | Flagged Requests | Workflow | Completion Status | My Profile

WHAT YOU CAN DO

Give the senior review just before the Chairman on the HR, Maintenance and Research routes, and follow all requests in the system.

- **Process requests:** Section 5 (page 8). Forwarding sends the request to the Chairman.
- **Ask questions:** Section 6 (page 8).
- **Track all requests** on the Workflow page, exactly as described for the Director Admin (Workflow page, page 20).

- **Flagged requests:** you can see and resolve flags at all stages except Chairman Office and Chairman (Section 7, page 10).
- **Completion Status** of all approved requests: Section 8 (page 10).

Chairman

ROLE GUIDE · 19

YOUR MENU

Dashboard | All Requests | Flow Categories | Queries | Policies | Flagged Requests | Workflow | Completion Status | User Management | My Profile

WHAT YOU CAN DO

Give the final decision on every request and every policy, see everything in the system, and manage all user accounts.

Approve or reject a request

1. Open the request from your **Pending** list and read the details and the comments of every officer in the Action History.
2. Click **Process Request** and add any comments or documents.
3. Click **✓ Approve Request** to approve, or **✕ Reject Request** and give the reason.

An approved request is final. It appears at once under **Completion Status** so its progress can be followed (Section 8, page 10).

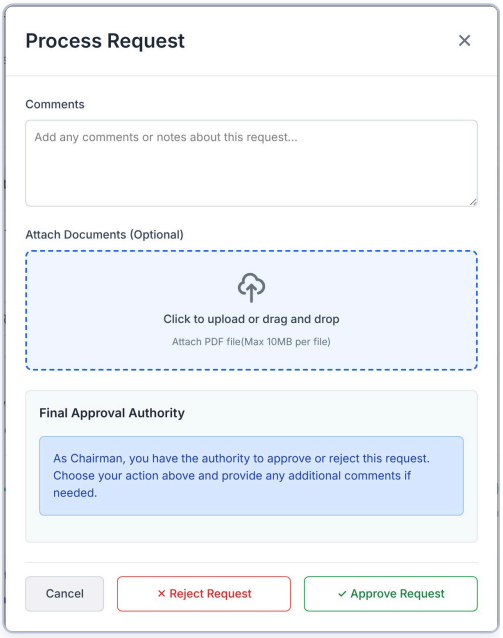

Figure 24 – Final approval

Approve or reject a policy

1. A number next to **Policies** shows policies waiting for you. Open the policy.
2. Use **Raise Query** if you need more information from the Head of Institution.
3. Click **Process Policy**, then **Approve Policy** or **Reject Policy** (a reason is required).

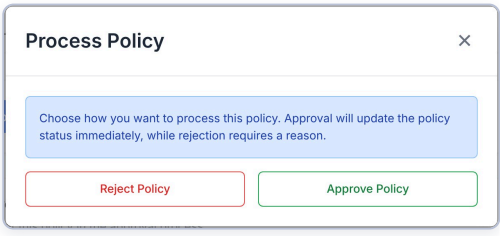

Figure 25 – Process Policy

Managing User Accounts

This section applies to everyone who has **User Management** in their menu. The Chairman can manage every role. The other roles can only manage the roles listed in their own guide.

Add one user

1. Choose the **Role** to create (on the Head of Institution's page, use the tabs) and click **+ Add single**.
2. Fill in **Name**, **Employee ID**, **Email**, **Phone**, **Role**, **Institution** and **Department**.
3. Click **Create user**. The new user signs in with the password **123456** and should change it.

Add many users at once

1. Select the Role and Institution, then click **Download template**.
2. Fill in the Excel sheet (name, employee ID, e-mail, phone, department) and upload it with **Choose .xlsx file**.

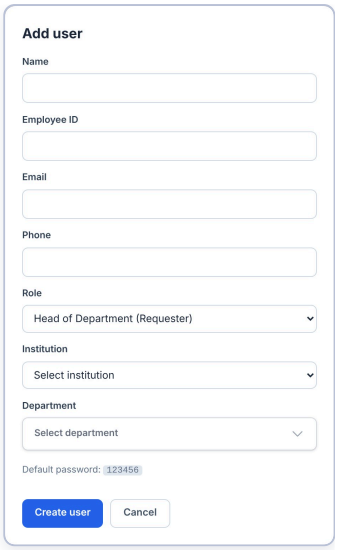

Figure 26 – Add user

Edit or remove users – click **Manage users**. Search or filter by role and institution, then click **Edit** to change details or **Delete** to remove an account.

Also for you: **Workflow page** (page 20), **Flagged requests at every stage** (page 10) and **Queries** (page 8).

APPENDIX

Quick Reference

A All Approval Routes at a Glance

Every request first passes **Head of Department → Institution Manager → Accountant → Head of Institution → Chairman Office**. After that it follows its route:

Route (Category)	Stages after the Chairman Office
Admin – HR	HR Head → Director Admin → Chief Director → Chairman
Admin – Purchase	MMA → Audit → Director Admin → Chairman
Admin – IT	Manager – Data Management → Audit → Director Admissions → Director Admin → Chairman
Admin – Maintenance	MMA → Audit → Director Admin → Chief Director → Chairman
Academic – Finance	Audit → GM Finance → Director Admissions → Director Admin → Chairman
Academic – Non-Finance	Director Admin → Chairman
Research	Audit → Director Research → Director Admin → Chief Director → Chairman

Route (Category)	Stages after the Chairman Office
Non-Budgeted	GM Finance → Chairman
Other	Stops at the Head of Institution, who chooses one of the routes above

Special cases. A request with no cost estimate skips the Accountant. A request raised by an Institution Manager starts at the Accountant. A request raised by a Head of Institution skips the Head of Institution stage. Policies, and items above ₹10 lakhs, go from the Head of Institution straight to the Chairman as a **Policy**.

B Common Questions

Question	Answer
I cannot see the **Process Request** button.	The request is not at your stage, or it is already approved or rejected. Check the **Stage** on the request page.
My request is stuck.	Open it and look at the Approval Workflow line to see who has it. If its status is **Query**, check your **Queries** page; someone may be waiting for your answer.
The form says "Only letters, numbers, spaces, - and _ are allowed".	Remove full stops, commas and other symbols from the Purpose box.
Can I edit a request after submitting it?	No. Ask the officer who has it to reject it with a note, then raise a corrected request.
I was suddenly signed out.	You may have clicked the SRM logo, or your session ended. Sign in again; your work is saved.
Which files can I attach?	PDF files, up to 10 MB each. While creating a request you can also attach Excel files; they are turned into PDF automatically.
Something in my profile is wrong.	Ask your Head of Institution, Chairman Office or Director Admin to correct it in User Management.
